## Eyelash Enhancing Serum

**RapidLash®** Eyelash Enhancing Serum helps improve the appearance of your own natural lashes. No need to fake it anymore! Fabulous, healthy-looking and absolutely gorgeous lashes are just a few, easy brush strokes away!

**RapidLash®** is an innovative **CLINICALLY PROVEN** serum formulated with an exclusive Hexatein™ 1 Complex, that helps boost the appearance of eyelashes with a simple once a day application. In as little as 30 days, lashes will appear more beautiful and thicker-looking.

A unique blend of lash enhancing ingredients exclusive to RapidLash®, specifically designed to target eyelashes from every angle!

### HEXATEIN™ 1 COMPLEX 6 INGREDIENTS – 6 BENEFITS:

Polypeptides, comprised of beneficial amino acids, help protect against breakage and support more voluminous-looking appearance of lashes.

Biotin (Pro-vitamin B7 / Vitamin H / Coenzyme R), an essential factor in maintaining healthier-looking, youthful lashes.

Panthenol - Vitamin B5 - helps coat the lashes and seal in moisture and nourishment for improved overall appearance.

Amino Acids help replenish the building blocks of lashes by boosting the protein structure and resulting in healthier-looking appearance of lashes.

Soybean Oil, rich in vitamins, helps impart sheen and luster to lashes making them appear lush and beautiful.

Pumpkin Seed Extract, high in zinc, EFAs, amino acids, vitamins and phytosterols, helps balance and enhance more voluminous-looking appearance of lashes.

Once a day simple application – and your lashes will go the distance!

**Directions:** Apply RapidLash Eyelash Enhancing Serum to the base of the upper eyelashes using the applicator brush. The eye should be completely clean of any make-up or creams. Start from the inner corner of the eye outwards, directly onto the base of your eyelashes.

RapidLash is to be used once daily in the evening before bedtime.

## FREQUENTLY ASKED QUESTIONS TESTIMONIALS

- Q. How is RapidLash® applied?**  
A. Using the applicator brush, apply a thin line of RapidLash® onto the base of the upper eyelashes once a day, before bedtime. Start from the inner corner of the eye moving outwards, just as if applying a liquid eyeliner. Use greater care if applying RapidLash® onto lower lash line to avoid direct contact with the eye. Eye should be complete clean of make up and/or eye cream. Wait until product has fully dried before applying additional cosmetics.
- Q. How frequently is RapidLash® applied?**  
A. RapidLash® is applied once a day, before bedtime.
- Q. How long does it take to see an improvement in the appearance of my lashes?**  
A. Our efficacy tests have shown an improvement in the appearance of eyelashes in as little as 4 weeks. It is recommended to continue using the product for 8 weeks for best results.
- Q. Will applying RapidLash® more frequently deliver results faster?**  
A. No. RapidLash® is designed to deliver fuller-looking and healthier-looking lashes with just once a day application and additional applications are neither necessary nor recommended.
- Q. What if I forget to apply RapidLash® at night?**  
A. If you forget and skip an application in the evening, apply product as usual the following evening. However, a consistent routine is the key to faster, better results.
- Q. How long will one container of RapidLash® last?**  
A. If applied according to directions, one 3 ml container of RapidLash® should last approximately 1-2 months. Daily applications to upper lash line only will provide a longer yield than if also applied to lower lash line.
- Q. What happens if I stop using RapidLash®?**  
A. Once you have achieved the desired appearance of lashes, it is recommended to continue to use RapidLash® to maintain the appearance. RapidLash® will continue to help nourish and enhance your lashes to help keep them looking healthy and beautiful.
- Q. I noticed that my lashes seemed darker after using RapidLash®. Is that possible?**  
A. The product is clear and transparent in its formulation. Due to the improved condition of the lashes they may appear fuller-looking and thicker-looking and therefore more defined.
- Q. Is RapidLash® safe to use so close to the eyes?**  
A. Yes. RapidLash® has been ophthalmologist-tested and found to be safe and non-irritating. However, as with any cosmetic product, some individuals may be allergic to one or more of the ingredients in the formulation. If you suspect an allergic reaction, discontinue use and seek medical advice immediately.
